**The Academy:**

The MK Fencing Academy MKFA, is the first of its kind in United Arab Emirates, and was established in 2002 by Mihail G. Kouzev. The primary objective of the Academy is to promote the sport of modern fencing in the United Arab Emirates and make it sustainable and viable prospect for all people particularly the youth, by offering the latest innovative fencing programs.

**MKFA Programs:**

In the Academy are practicing juniors from 7yrs old and adults from beginners to Olympic level of fencers! The training is conducted by professional and very well educated Master Coaches. The training sessions are flexible and focused on the individual goals of the fencers. Sessions are between 30 minutes (for the "one on one" private) to 90 minutes (group sessions) depending of the age, the level and the stage of preparation of the participant. The sessions include specific fencing physical conditioning, fencing drills such as movements, techniques, tactics and game play.

**Venue:**

The MK Fencing Academy MKFA, UAE uses the facilities of Raffles International School, South Campus. Fencers are entitled to use only the fencing hall and changing room facilities plus showers. To access the school you need to sign in at the security gate and use the side parking area (please do not park at the front of the school).

**Use of Academy Equipment:**

Fencing equipment is expensive, and the Academy is fortunate to have a reasonable amount of gear for use by its fencers. Fencers who are beginners may use Academy equipment for the first three (3) months, after which they are expected to purchase their own fencing swords, glove, mask, jacket, chest protection, under plastron, etc. In particular, the Academy supplies electric weapons for regular Academy fencers. Electric scoring boxes and spools are available for use by all Academy fencers during Academy times. Note that Academy equipment may only be used by Academy fencers.

Please handle the equipment carefully. If something breaks, please put it aside and inform the coach so that the broken equipment may be replaced. Just about everything can be fixed by the Academy, although this is very time consuming and we rely on Academy fencers to be considerate and careful with all equipment. Most gear is easy to fix, and anyone can learn how to do it – we are happy to teach interested parties.

Please put away/hang up all equipment in the same place you found it. Although this may seem like common sense, the equipment shelf rapidly becomes a mess when people don't take care. Fencers are all expected to help set up and put away the electric equipment and fencing strips.

Finally – please don't take any equipment home. Academy gear belongs to the Academy, and although some gear is available for various competitions, you must sign for this before removing it from the Academy.

Thank you for your understanding and cooperation.
